

WINGS OF PEACE
Lyrics by Glenda Rae & Kathleen Tonnesen

Verse 1

A little girl waits
Again for her mother
To come home
The day is a blur
Bad news
And the fear of being alone

Pre-chorus 1

Life will bring pain
Violence in the streets
Run into my arms
I'll soothe your aching soul

Chorus 1

In fire and light
We break down tonight
The harsh truth of souls
Gone without a chance
Love can heal
Though your heart does bleed
It will lift you up and carry you
On wings of peace

Verse 2

What can I say
To answer a small, wondering face
When daddy is lost
And childhood forever stolen away

Pre-chorus 2

Living can hurt
Dying on the streets
Fall into my arms
I'm here for you

Chorus 2

Bridge

Sometimes this world it won't make sense
All the words of anger are no defense
Let the wings of peace
Come carry you away

Solo

Chorus 3

In fire and light
We break down tonight
The harsh truth of souls
Gone without a chance

Love can heal
Though your heart will bleed
Love will lift you up and carry you

Chorus 4

In fire and light
We break down tonight
The harsh truth of souls
Gone without a chance
Love can heal
Though your heart will bleed
Love can lift you up and carry you
On wings of peace

On wings of peace
